

# 11 into 12 Summer Textiles Homework

- Choose four pairs of words from the list, one MUST be weathered and worn. Take FOUR photographs linked to each of the words below.

man-made/natural  
urban/rural

old/new  
inside/out

organic/mechanic  
weathered and worn

beginning/end  
light/dark

These images will be used as that starting points for your workshops in September. Think about composition, make sure some are close-up and cropped and look more abstract. You can manipulate some of your images using an app (pixlr and firefox and both free and good). Some need to be in colour some black and white. You will need to bring these images to your first lesson.

Have fun and be creative!

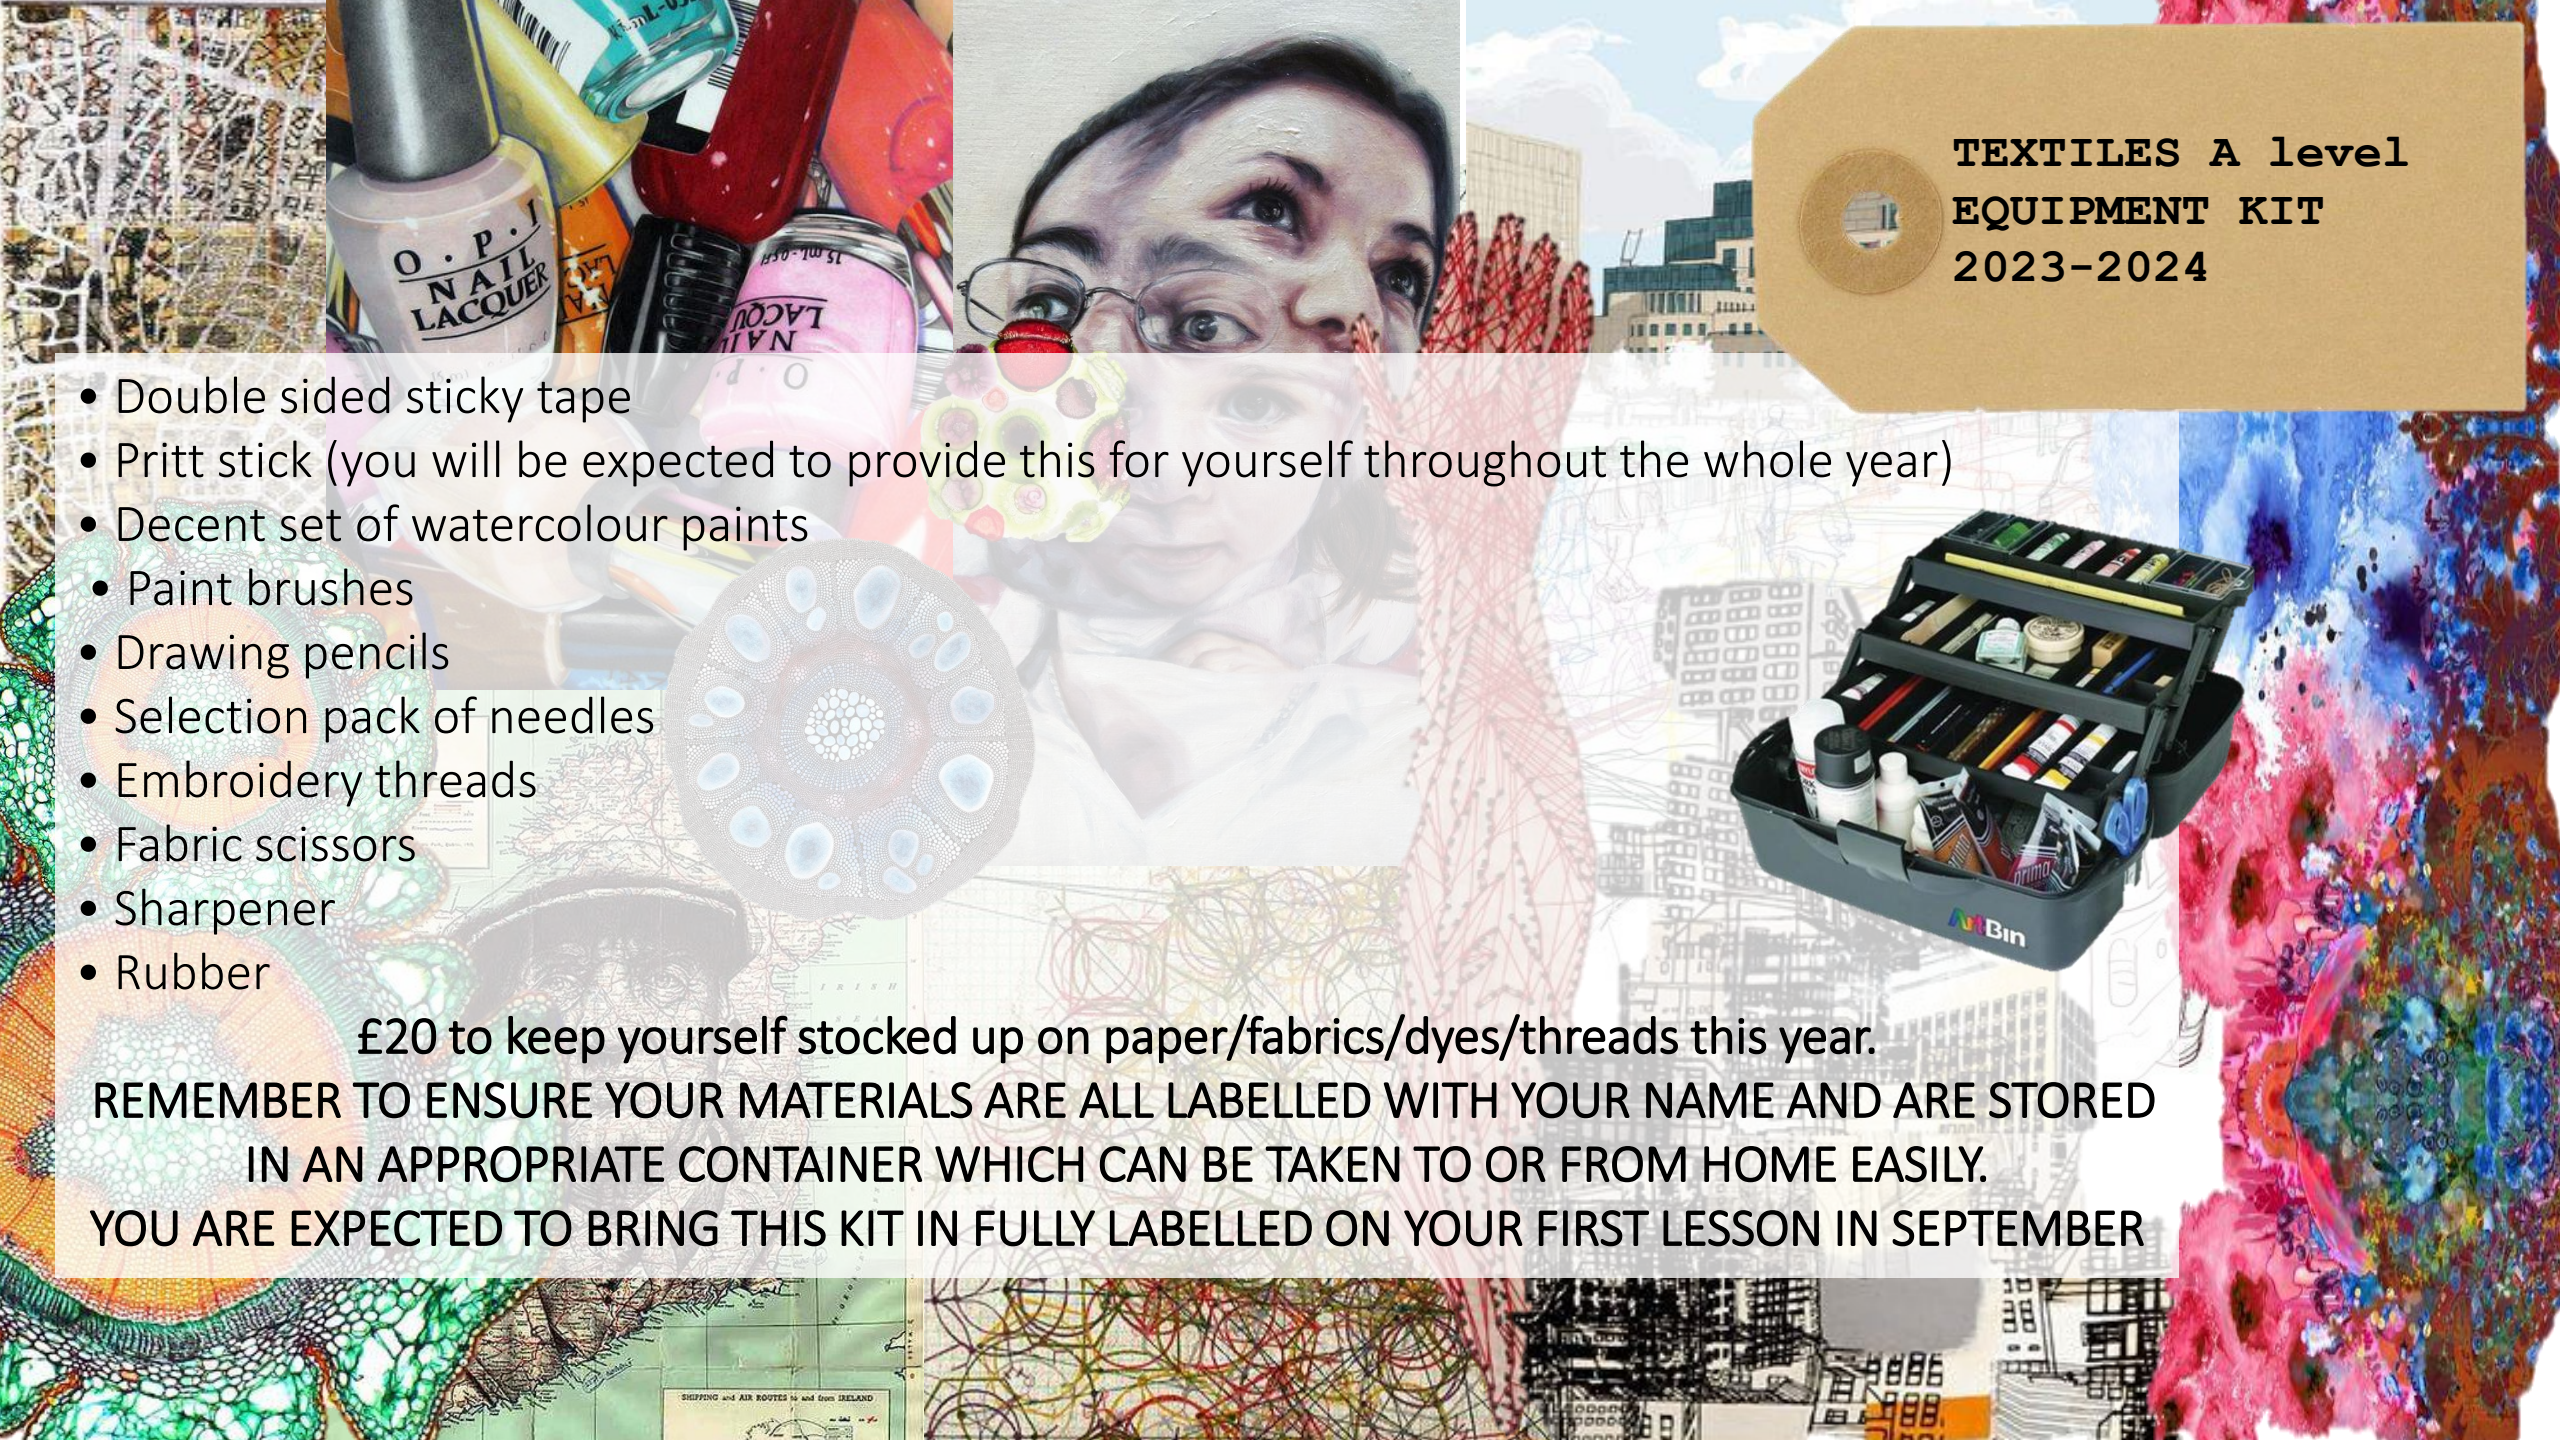

# Upcycle TASK – get creative!

- Find an old T shirt and create your master piece. **Please ask before you cut it up!**
- Search online for inspiration, there are plenty of T shirt tutorials to inspire you
- Don't forget to draw/document/photograph your creation and present it.
- Please bring your upcycle T shirt and documentation with you to school in September
